## **DETAILED ACTION**

### ***Response to Amendment***

This Office Action is responsive to Applicant's amendment and request for reconsideration of application 10/758,262 filed on April 19, 2007.

The amendment contains new claims: 35-36.

Claims 29-34 have been canceled.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 35-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The language presented in Claim 35 in sections (c), (i) and (ii), represents new matter as the negative limitations as presented are not included as negative limitations in the specification.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3692

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 35-36 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent 6,243,688 B1 to Kalina (further referred to as Kalina).

Kalina discloses a method for a computer system for funding a financial account by using a financial card (Figures 1-2; columns 2-6), comprising:

(a) issuing the customer a first financial card account valid for the purchase of goods and services, said card comprising at least one of a credit card and a debit card (Figure 2; column 3, lines 42-52; column 5, lines 8-37);

(b) generating a monetary card usage earned reward for the customer based upon the customer's purchases using the card during a predetermined time period (Figure 2; column 3, lines 1-5; column 4, lines 1-6; column 4, lines 56-63; column 5, lines 8-37);

(c) programming the computer system to link the customer's card to a second financial account for the customer wherein deposits or investments in said account are:

(i) not restricted to purchases of stock in a corporation employing the customer or in which the customer owns stock (Figure 2; column 3, lines 1-5; column 4, lines 56-63; column 5, lines 8-37); and

(ii) are not limited to a single corporation or other entity or asset (Figure 2; column 3, lines 1-5; column 4, lines 56-63; column 5, lines 8-37);

(d) periodically crediting the customer's second financial account by an amount equal to the customer's then-accrued card usage monetary reward earned by said customer during a predetermined period (Figure 2; column 3, lines 1-5; column 4, lines 1-6; column 4, lines 56-63; column 5, lines 8-37; column 6, lines 19-23);

wherein the rewards earned by the customer are valid only to fund the customer's said second account (Figure 2; column 3, lines 1-5; column 4, lines 1-6; column 4, lines 56-63; column 5, lines 8-37).

### ***Response to Arguments***

Applicant's arguments with respect to claims 35-36 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3692

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
